

Atharv Pawar

Junior Full Stack Developer | React, Next.js, Node.js, TypeScript

Mumbai, India | +91-9119468987 | atharvpawar34s@email.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Junior Full Stack Developer with internship experience across frontend, backend, API integration, responsive web development, debugging, and deployment support. Strong working knowledge of React.js, Next.js, Node.js, Express.js, TypeScript, JavaScript, Python, MongoDB, MySQL, and PostgreSQL. Built clean user interfaces, reusable components, CRUD features, and developer-friendly project structures. Known for fast learning, ownership, and translating requirements into practical web solutions.

CORE SKILLS & TECHNOLOGIES

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3, responsive UI, reusable components

Backend: Node.js, Express.js, REST APIs, CRUD workflows, API integration

Languages: JavaScript, TypeScript, Python

Databases: MongoDB, MySQL, PostgreSQL

Cloud & Tools: AWS, Git, GitHub, Docker, Postman, VS Code

Strengths: Debugging, clean code, collaboration, deployment support, feature implementation

PROFESSIONAL EXPERIENCE

Coding Teacher Intern | Empower Nov 2025 - Apr 2026

- Delivered hands-on coding sessions on web development and programming fundamentals, helping learners strengthen problem-solving, logic building, and JavaScript basics through structured exercises and mini-projects.
- Created lesson materials, debugged student projects, and provided one-on-one guidance that improved code quality, confidence, and engagement during classroom sessions.
- Translated technical concepts into simple, actionable learning steps, demonstrating strong communication and debugging discipline relevant to developer teams.

Web Development Intern | KartBuddy Logistics May 2025 - Aug 2025

- Developed responsive web modules for logistics-related workflows, turning business requirements into usable interfaces and backend-supported features.
- Worked with Node.js, Express.js, and databases to support CRUD functionality, data handling, internal tooling, and day-to-day product improvements.
- Collaborated on debugging, testing, and deployment-related tasks while following structured development processes and confidentiality requirements.

Web Developer Intern | EasyGoLife Oct 2024 - Dec 2024

- Built reusable UI components and responsive pages for web applications, improving consistency, usability, and cross-device behavior.
- Assisted with API integration, bug fixing, and feature support to help deliver stable web application updates within project timelines.
- Contributed to frontend maintenance and release-readiness by resolving interface issues and supporting deployment activities.

Atharv Pawar | Project Portfolio & Qualifications

SELECTED PROJECTS

Featured Project - Dashboard Application | Next.js, TypeScript, Tailwind CSS

- Designed and built a modern dashboard interface with modular components, responsive layouts, clean routing structure, and scalable frontend architecture.
- Implemented data-driven views, reusable UI patterns, and organized TypeScript code to improve maintainability, readability, and future extensibility.
- Focused on polished user experience, structured state handling, and developer-friendly component organization suitable for admin and analytics-style products.

Portfolio Website | MERN Stack

- Built a full-stack portfolio website to showcase projects, skills, and contact details through a responsive and recruiter-friendly interface.
- Integrated frontend, backend, and data flow concepts to create a practical end-to-end project demonstrating web development fundamentals.

Dockerized Node.js Application | Node.js, Docker

- Containerized a Node.js application to standardize local development and simplify execution across environments.
- Created a cleaner deployment-ready workflow by packaging application dependencies and runtime behavior using Docker.

CANDIDATE VALUE HIGHLIGHTS

- Hands-on exposure to interface building, API integration, debugging, testing support, and deployment-oriented tasks.
- Comfortable working across frontend and backend layers with practical understanding of responsive design, REST workflows, and database-backed features.
- Strong fit for junior full stack, frontend, web developer, and React/Next.js roles that value adaptability, execution discipline, and growth mindset.
- Able to translate requirements into working features while maintaining clean UI structure, reusable components, and readable code organization.

CERTIFICATIONS

- Master in Full Stack Web Development with AWS
- AWS Certified Cloud Practitioner
- SQL Professional Certification
- Python Programming Essentials

EDUCATION

Bachelor of Computer Applications (BCA) | Pune Tilak Vidyapeeth, Maharashtra | 2022

HSC | S.D. Gadre High School, Maharashtra | 2019

TARGET ROLE ALIGNMENT

- Open to Junior Full Stack Developer, Frontend Developer, React Developer, Next.js Developer, and Web Developer opportunities.
- Interested in scalable products, modern interfaces, and backend-supported applications with strong engineering foundations.
- Continuously building stronger practical depth in cloud, deployment, and production-ready development workflows.

ATS Keywords: Full Stack Developer, Frontend Developer, React Developer, Next.js Developer, Node.js, Express.js, JavaScript, TypeScript, Python, REST API, MongoDB, MySQL, PostgreSQL, AWS, Docker, Git, responsive web design
